

**SYSTEM AND METHOD FOR AUTOMATIC AND ADAPTIVE USE OF
ACTIVE NETWORK PERFORMANCE MEASUREMENT TECHNIQUES
TO FIND THE FASTEST SOURCE**

5

ABSTRACT OF THE DISCLOSURE

Systems and methods are provided through which automatic and adaptive use of active network performance measurement techniques identifies a fastest download source. Before a download source is selected, empirical measurements of the download speed are performed. For small files, the first source to acknowledge an open socket connection is used as an indication of the fastest download source. For large files, a download test is performed as the empirical measurement to determine the fastest download source.

Filing Fee Paid 3/27/2001 884.441US1

"Express Mail" mailing label number: EL806497191US

Date of Deposit: June 19, 2001

This paper or fee is being deposited on the date indicated above with the United States Postal Service pursuant to 37 CFR 1.10, and is addressed to the Commissioner for Patents, Box Patent Application, Washington, D.C. 20231.
